CSI® ROCHESTER NEW YORK CHAPTER

53rd ANNUAL

Catalog Samples Information Night

November 4, 2026

Sponsored by Rochester New York Chapter Construction Specifications Institute

Welcome!

Allison Shannon, AIA, CSI
SWBR
260 East Main Street
Suite 4000
Rochester, NY 14604
585-232-8300
ashannon@swbr.com

Rochester Chapter CSI would like to welcome you to the 53rd Annual CSI Night. Your interest and use of the exhibitors' products have helped to make this possible. Throughout the year, please use this book as an aid in selecting products.

Enjoy the show, and we hope to see you all again next year!

CSI ROCHESTER NEW YORK CHAPTER

Join CSI Rochester

CSI is the only organization that meets the career advancement needs of professionals across all areas of the construction industry. The keys to our members' success? Making valuable contacts with decision-makers who can directly advance their careers, receiving professional recognition, and sharing information to do their jobs better.

Membership Opportunities

Professional
Technically experienced individual whose primary function is to author, manage, or communicate building information; to create, interpret, or use construction documents; or to educate, support, or assist the construction industry.

Emerging Professional
Individual who has less than three years' experience in any construction-related field and is a prospective Professional Member.

Student
Full-time student enrolled in an undergraduate or graduate program in a construction industry curriculum at an educational institution.

Enroll online at www.csiresources.org/join

MEMBERSHIP TYPES

☐ **Professional: $375**
I am a technically experienced individual whose primary function is to author, manage, or communicate building information; to create, interpret, or use construction documents; or to educate, support, or assist the construction industry.

☐ **Emerging Professional: $200***
I am an individual who has less than three years experience in any construction-related field and am a prospective Professional Member.

☐ **Student: $70**
I am a full-time student enrolled in an undergraduate or graduate program in a construction industry curriculum at an educational institution.

**Emerging Professional membership is limited to three years, at which time members must renew at the Professional level.*

CSI allocates $16.50 of membership dues to The Construction Specifier Magazine. Please check with your tax professional regarding appropriate business deductions for membership dues.

CSI Membership

CSI Membership is good for one year, with your membership starting the day that your payment is received and processed.

This Enrollment Form pricing is valid from July 1, 2025 through July 30, 2026. Prices and information are subject to change.

CSI memberships are non-refundable and non-transferable

MEMBERSHIP ENROLLMENT FORM

Personal Information

First Name: _____ Middle Initial: _____ Last Name: _____

Nickname: _____

Title: _____

Firm Name: _____

Website: _____

Primary Address: _____

City | State | Zip: _____

Primary Phone: (_____) _____

Primary Email: _____

Date of Birth: _____

Please review the listings on the back and enter the corresponding number(s) that best describe the following:

Occupation Code: _____ Firm Type Code: _____

Membership Dues and Chapter Designation

Membership Dues *(See types of membership above)* ..... $_____

Home Chapter *(See reverse side)* _____ Included

Membership Certificate *(Optional)* ..... $ 15.00

Total *(US funds only)* ..... $_____

Signature* _____

**Required to validate your enrollment form.*

(Payable to CSI–please specify "Member Dues" and if renewing membership include member ID on memo line.)

Visa ☐ **Mastercard** ☐ **AMEX** ☐ **Check** ☐

Card #_____ **CVV Code** _____ **Exp. Date** _____

Signature* _____

**Signature required for credit card authorization. If using a credit card, please do not email form for security purposes.*

Occupation Codes

ENVIRONMENTAL CONSULTING AND ANALYSIS

Asbestos Laboratory Services
Paradigm provides expert analysis of suspected asbestos-containing materials, abatement air monitoring samples, personal air monitoring samples, and environmental samples.

Environmental Consulting Services
We provide advice, thoughtful solutions, integrated strategy, and value-added services to address today's complex environmental concerns. From data interpretation to an expert analysis of local and federal regulations, Paradigm's team of experts is available to guide each project from planning to conclusion.

Paradigm Environmental Services
Paradigm Environmental Services offers thoughtful solutions to address today's complex environmental concerns. We provide architects, engineers, building owners, industrial clients, and contractors with advice, integrated strategy and value added services to confront environmental problems.

Analytical Chemistry Services
Our laboratory is a closely coordinated network of analysts covering organic and inorganic testing that work as a team to provide rapid, high quality results for matrices from soil and water to building materials like paint and caulk, to transformer oils. When requested, our team of experts provide fully validatable Category B packages and New York State DEC compliant Electronic Data Deliverables (EDDs).

HUBER ENGINEERED WOODS, AdvanTech Zip System – Sheathing and Tape

ADVANTECH FLOORING AND SHEATHING

Build with AdvanTech® flooring for award-winning performance you can rely on. Specifically engineered to combine industry-leading strength, superior moisture resistance and installation ease, AdvanTech flooring is the FLAT OUT BEST™ for a quiet, stiff floor.

Total performance in one panel:

- High density engineered wood for industry leading strength and stiffness
- Advanced moisture resistant resin technology applied through the panel
- Superb fastener-holding power helps keep floors flat and quiet
- Patented fastening guide for easier installation
- Precisely milled and extremely durable tongue and groove profile for easy installation
- Ranked #1 in quality every year for more than a decade
- Backed by the reputation of Huber Engineered Woods

with an industry-leading warranty and unmatched 500-day no-sanding guarantee, AdvanTech® flooring is the flooring panel that more builders trust. It's engineered for superior strength, moisture resistance and quality so you can build the quiet, stiff floor your homeowners demand. Build with the award-winning industry-leader and rest assured you'll get the most from your floors and everything you build on top of them.

ZIP SYSTEM SHEATHING & TAPE

It's a one-of-a-kind structural roof and wall system with a built-in energy-efficient barrier that keeps moisture out and reduces air leakage, while still allowing panels to properly dry. Plus, it installs in two easy steps: 1. Install the panels, 2. Tape the seams. Fewer steps result in 40% faster installation when compared to traditional housewrap and felt.

KEY FEATURES AND COMPONENTS OF ZIP SYSTEM® SHEATHING AND TAPE

1. High quality structural sheathing panel made of engineered wood delivers strength and durability
2. Built-in vapor permeable water-resistive barrier eliminates the hassles of house wrap and felt. Engineered for enhanced drainage of bulk water and optimal permeability to allow water vapor to pass through and promote drying
3. A continuous, rigid air barrier decreases unwanted air leakage for greater energy efficiency
4. ZIP System™ tape with a specially engineered, high performance acrylic adhesive bonds with ZIP System® panels for a permanent protective seal

ZIP SYSTEM R-SHEATHING

For installation convenience and exceptional, long-term performance, the all-in-one ZIP System® R-Sheathing panel provides a new approach to sealing and insulating the building envelope. One panel delivers thermal, air and moisture resistance, while providing excellent strength and durability.

1. **Continuous Foam Insulation Provides Higher R-value**
   - Increases thermal performance while eliminating
   - Thermal bridging
   - Designed to meet new energy codes
2. **Engineered Wood Provides Structure and Durability**
   - Nailable wood base for trim and accessories
   - Provides security against easy home intrusion
3. **Built-In Water Resistive Barrier Eliminates Housewrap and Felt**
   - Eliminates costly rework
   - Instant rough dry-in with 180-day exposure guarantee
   - Superior drainage efficiency that channels moisture downward off the panel face. Permeable overlay promotes panel drying
4. **Continuous Air Barrier Creates Greater Energy Efficiency**
   - Decreases unwanted air leakage into and out of a building
   - Helps protect the R-value of insulation, reducing heating and cooling costs
5. **ZIP System™ Tape Permanently Seals All Panel Seams**
   - Acrylic formulation provides superior adhesion
   - Rigorously tested for long-lasting performance
   - Easily applied with tape gun and accessories

EXACOR™ Underlayment

EXACOR™ underlayment panels are specifically engineered to meet the fire-rating[1], sound-rating[1] and dimensional stability

requirements of most multifamily and light commercial jobsites. Made of magnesium oxide and an integrated mesh core, EXACOR underlayment panels are fire resistant[2]. In addition, EXACOR underlayment panels can offer a base for floor coverings that can eliminate the need for gypsum underlayment and the jobsite delays that may come with it.

EXACOR™ Wall Sheathing

EXACOR wall sheathing panels are fire-resistant[1], high-density, structural magnesium oxide cement panels. When used as an exterior wall sheathing, EXACOR™ panels can replace other sheathing materials in certain assemblies, potentially reducing the number of layers required.

Limitations and restrictions apply to EXACOR™ sheathing used in exterior walls of Type III Construction that are greater than 40ft in height above grade plane. Please refer to ESL-1290 for more information on the use of EXACOR sheathing in NFPA 285 assemblies. EXACOR sheathing is not approved for use on Type I or II buildings except as noted in ESR 4635.

HUBER ENGINEERED WOODS, Zip System – Sheathing and Tape

It's a one-of-a-kind structural roof and wall system with a built-in energy-efficient barrier that keeps moisture out and reduces air leakage, while still allowing panels to properly dry. Plus, it installs in two easy steps: 1. Install the panels, 2. Tape the seams. Fewer steps result in 40% faster installation when compared to traditional housewrap and felt.

Key Features and Components of ZIP System® Sheathing and Tape

1. High quality structural sheathing panel made of engineered wood delivers strength and durability.
2. Built-in vapor permeable water-resistive barrier eliminates the hassles of house wrap and felt. Engineered for enhanced drainage of bulk water and optimal permeability to allow water vapor to pass through and promote drying.
3. A continuous, rigid air barrier decreases unwanted air leakage for greater energy efficiency.
4. ZIP System™ tape with a specially engineered, high performance acrylic adhesive bonds with ZIP System® panels for a permanent protective seal.

5-in-1 System with Layers of Innovation

For installation convenience and exceptional, long-term performance, the all-in-one ZIP System® R-Sheathing panel provides a new approach to sealing and insulating the building envelope. One panel delivers thermal, air and moisture resistance, while providing excellent strength and durability.

1. **Continuous Foam Insulation Provides Higher R-value**
   - Increases thermal performance while eliminating thermal bridging
   - Designed to meet new energy codes
2. **Engineered Wood Provides Structure and Durability**
   - Nailable wood base for trim and accessories
   - Provides security against easy home intrusion
3. **Built-In Water Resistive Barrier Eliminates Housewrap and Felt**
   - Eliminates costly rework
   - Instant rough dry-in with 180-day exposure guarantee
   - Superior drainage efficiency that channels moisture downward off the panel face
   - Permeable overlay promotes panel drying
4. **Continuous Air Barrier Creates Greater Energy Efficiency**
   - Decreases unwanted air leakage into and out of a building
   - Helps protect the R-value of insulation, reducing heating and cooling costs
5. **ZIP System™ Tape Permanently Seals All Panel Seams**
   - Acrylic formulation provides superior adhesion
   - Rigorously tested for long-lasting performance
   - Easily applied with tape gun and accessories

HUBER ENGINEERED WOODS, Zip System – Liquid Flash

ZIP System™ Liquid Flash is a liquid-applied flashing membrane made of STPE (silyl-terminated-polyether) technology. This high-performance formulation combines the durability of silicones with the toughness of urethanes

1. **Optimal Viscosity**
   Flows easily to seal irregular shapes and surfaces.
2. **Quick Cure Time**
   Immediately weather resistant and tack free in as little as 20–40 minutes depending on conditions. Target thickness achieved when substrate is no longer visible.
3. **Weather and UV Resistant**
   Warranted for up to 180 days of extreme weather and UV exposure.
4. **Proper Adhesion to a Wide Range of Surfaces**
   Bonds to wood, concrete, masonry, architectural metals, glass, PVC, FRP, EPDM and most other building materials.

TimberHP -Wood fiber insulation made in America-
About TimberHP:
TimberHP manufactures high-performance, carbon-storing wood fiber insulation—made in Maine from responsibly harvested softwood chips. Our products deliver the thermal performance, fire safety, and durability expected by pros, while offering a renewable, recyclable alternative to foam and mineral wool. Designed for North American construction, **TimberHP** insulation is vapor-open, easy to cut, and built for better buildings and a healthier planet.
Products:

TimberBoard – Continuous rigid insulation panels for exterior walls and roofs. Vapor-open, with a high-compressive strength, in Class A (available Q2 2026) or Class B fire ratings.
TimberBatt – Semi-rigid batts for wood or steel framing. Excellent fit, R-value, and sound control with clean, fiber-bound edges for easy installation.
TimberFill – Loose-fill insulation for attics, walls, and floors.

Blown-in wood fiber offers consistent coverage, high density, and natural moisture buffering.

What Sets Us Apart

• North America's first wood-fiber insulation made at scale
• Renewable, carbon-storing materials sourced and made in Maine
• Performance meets sustainability—no compromise

GUARDIAN INDUSTRIES HEADQUARTERS
2300 Harmon Road
Auburn Hills, MI 48326

Website: www.guardianglass.com
Email: atoadvine@guardian.com

Guardian Industries is a diversified global manufacturing company with leading positions in float glass, low-e coatings and fabricated glass products. Our local float glass production facility is located in Geneva, New York and we would love to take you on a tour of our facility.

Guardian SunGuard® Advanced Architectural Glass helps architects create striking building designs using natural light and color – while significantly reducing energy costs.
SunGuard Advanced Architectural Glass is all about helping architects "See What's Possible" and offer the most comprehensive range of coatings, colors and design solutions in the industry, while still meeting complex energy and performance requirements.

BIRD FRIENDLY GLASS… Glass can pose an invisible threat for birds, made more hazardous by location, lighting, landscaping and more. Guardian has created an extensive line of Bird Friendly products – under our Guardian Bird1st product line. Guardian bird-friendly solutions pair with your favorite SunGuard® low-E coatings to help meet energy performance requirements and support LEED bird collision deterrence. Tested by the American Bird Conservancy for proven effectiveness, so you can build better for birds without sacrificing performance or aesthetic. We find these products to be beneficial in meeting the requests of many clients in the higher education and healthcare project segments.
NEW PRODUCTS… Guardian Glass continues to focus on innovation, developing products that help to meet updated energy code requirements and aesthetic trends. We are excited to announce that we have advanced our triple silver coating portfolio with the launch of our newest low-e coating – **SunGuard™ SNX 60+.** SNX 60+ delivers standout energy

efficiency with a clean aesthetic for façades designed to inspire and perform virtually anywhere. This glass can help your projects benefit from increased natural daylight with less unwanted heat gain. Our Guardian CrystalClear™ low-iron glass substrate continues to be a leading cost-effective low iron option in the market. CrystalClear offers 67% more color neutral appearance over standard clear glass with greater affordability compared to conventional low-iron glass alternatives.

NEW TOOLS… Introducing the *Guardian Glass Visualizer* — a best-in-class, photo-realistic simulation tool that brings your glass designs to life. This innovative platform allows you to dynamically visualize the exterior appearance of virtually any glass makeup. Simply select a SunGuard® low-E coating and substrate, then explore how different sky conditions affect the glass's aesthetic. You can also apply Guardian Bird1st™ bird-friendly options, including UV, etched, and fritted patterns, to see how they influence the final look. Check it out at ***guardianglass.com/us/en/visualizer***

Guardian also offers a suite of advanced, easy-to-use digital tools for glass and glazing system analysis. Our online Guardian Glass Analytics platform provides comprehensive engineering and performance reports that highlight the benefits of high-performance glass in modern building facades. Register today to access the Glass Performance Calculator, Building Energy Calculator, BIM and 3-Part Spec Generator and Glass Visualizer at guardianglass.com/us/en/portal

Clarence Center, NY 14032

Website: www.wmssales.com

Email: customerservice@wmssales.com
mcalaprico@wmssales.com

WMS Sales Inc. is headquartered in Clarence Center, NY, as a Manufacturer Representative Company, our sales territory covers all of upstate New York (including Orange and Putnam counties) and northwestern Pennsylvania.

Our corporate mission simply stated but not simply accomplished is: “To offer the best service possible to our customers in the plumbing, heating, and municipal markets”. Our entire staff works diligently to accomplish this goal.

Our company is focused on all aspects of the plumbing, heating and municipal markets. Calls are made on architects, specifying engineers, wholesalers, contractors and end users (i.e. maintenance personnel). We are members of ASPE, ASHRAE, AWWA, NYSPHW, APBA, AIMR, Cross Connection Control Foundation and the local Chamber of Commerce. Our success can be attributed to growth in the plumbing and heating markets, as well as the quality and service that the WMS Sales personnel has maintained.

SLOAN, Sinks, faucets flushometers
T&S BRASS, faucets (manual & electric)
OASIS, water coolers, bottle fillers
